

CHAPTER NINETEEN

Numerical Miracles of the Qur'an¹

O Allah (The Exalted) bless our master Muhammad (may Allah bless him and grant him peace) with blessings never-ending and unceasing.

Topic	Number of times mentioned in the Qur'an
Al-Dunya : This world	115
Al-Akhira : The hereafter	115
Al-Mala'ikah : Angels	88
Al-Shayateen : Satan	88
Al-Hayat : Life	145
Al-Maout : Death	145
Al-Rajul : Man	24
Al-Mar'ha : Women	24
Al-Shahr : Month	12
Al-Yahom : Day	365
Al-bahar : Sea	32
Al-Bar : Land	13

If we add up the total words of both "Sea" and "Land" we get 45. Now if we do a simple calculation:

$$32 / 45 \times 100\% = 71.11111111\%$$

(Sea in the Qur'an, divide, total times sea and land mentioned in the Qur'an, times 100%, equals, percentage of Sea)

$$13 / 45 \times 100\% = 28.88888888\%$$

(Land in the Qur'an, divide, total times sea and land mentioned in the Qur'an, times 100%, equals, percentage of Land)

Above is what we know today, the percentage of Water (Sea) and Land in the world. Yet the Qur'an mentioned it when it was revealed to the Messenger of Allah (may Allah bless him and grant him peace).

The Scholars say that the Qur'an has everything written in it, to the extent that 'Abd-Allah ibn 'Abbas (may Allah be pleased with him) says if he lost the whip of his animal he would find it in the Qur'an, *Subhanallah!*
